Salvation Army's "Doughnut Day" is Tomorrow, the 13th

Friday the 13th does not mean bad luck this time.

Throughout Chicago and the suburban areas, this Friday will be "Doughnut Day." The Salvation Army's annual tag day. And because the proceeds of this day form a large share of the support that lets The Salvation Army help the needy of this area, Friday the 13th figures to be a day of good luck for persons who need it.

During the past 12 months, more than 78,000 persons—men, women and children—received assistance from The Salvation Army in the Chicago area. Food, lodging, clothes, medical and dental care, rehabilitation, fresh air vacations for slum dwellers, hospital care for unwed mothers and for convalescents, emergency service to police and fire personnel at fires and other disasters, and a host of other services have been extended without reference to the race, color or creed of the persons needing help.

On Friday, teams of volunteers, totaling approximately 10,000 in the Chicago area, will be in action from 6:00 a.m. until late afternoon accepting the public's contributions in support of The Salvation Army. Each contributor will be tagged with the famous little paper doughnut that has become a symbol of this day.

Chairman for the drive in Mokena is Mrs. Harley Gillette, in Orland Park, Mrs. H. Adele Cooper, in Tinley Park, Mrs. Chris Steinhagen.

MOKENA VOTERS CALLED TO TALK OVER PROBLEMS

Because of the proposed improvements in the village of Mokena, the estimated cost being around \$173,700, the village board has called a meeting for Wednesday evening, June 11 at 8 o'clock in the Mokena public school.

Rev. William Riemann, pastor of St. John's Evangelical and Reformed church is scheduled to be moderator of the meeting when representatives from the engineering firm of DeLeuw, Cather & Company, and from the bond house of Benjamin & Long, Inc., will be present to discuss the proposed program.

Everyone in the village should attend this meeting and voice their opinions.

St. Mary's School Gives 1st Diplomas

The first graduation class of St. Mary's school received their diplomas at high Mass last Sunday. The five graduates were escorted to their seats by little angels.

During the Mass, Ann Henneberry was led to the communion rail by Marcella Moroni; Robert Olson by Roger Olson; James Scudella by Richard Scudella; Michael Clegg by Martin Clegg; and Brian Henneberry by Daniel Miller. The class then received Holy Communion.

After Mass, the angels again led the graduates to the altar, where Father Juniper presented the diplomas. Solemn Benediction followed.

The girls choir, under the direction of Sister Mary Charlotte, the Superior, sang the Mass and Benediction.

After Mass, the graduates and their parents enjoyed breakfast together in the school hall, prepared and served by several of the mothers.

Carnival Spirit to Hold Full Sway at Midlothian Jamboree

Midlothian village will be the scene of exciting activity during the week of June 16 to 22 when the community celebrates its 25th Anniversary with a Jamboree sponsored by the Lions club and fifteen supporting organizations.

In addition to the general carnival spirit, the merchants are backing the event with gigantic sales, attractive specials and entertaining features or merchandising.

An amateur contest will be the feature of Tuesday night, June 17; free street dancing is offered on Monday; a square dance festival that promises to attract a thousand devotees of "do-si-do"; and a huge parade on Sunday all add up to a gala, carnival event.

Sunday's gigantic parade will feature vintage cars still in operation and hundreds of floats and marching units from all over the area. A clown band from as far away as Ottawa, Ill. will provide comedy and entertainment.

During the week the local garden club will show exceptional products of the enthusiastic green-thumbeders of the township; the youth organizations—Boy and Girl Scouts, 4-Hers, Cubs and Brownies plan demonstrations of their activities on Wednesday, and on that evening a group of picked youth will take over the functions of the village officials and run the meeting of the board of trustees.

The Midlothian village board has passed a resolution making it mandatory for officials, members of co-operating organizations and business men to wear at least one visible Scotch garment during the week.

The Scotch motif is derived from the name of the village which was named after the nationally famous Midlothian Country Club situated one mile west of the village.

The village of Midlothian owes not only its name to the country club but its very origin and growth. Because the members of the country club, for their convenience before the days of motor cars, persuaded the Rock Island railroad to build a spur track from the main line at 147th street to the country club, a station was built and the village grew up around it.

Carl Kagebein, chairman of the Jamboree, enthusiastically predicts that this event will be the forerunner of a series held yearly which will become as famous as Tulip Time in Holland, Mich., Lilac Time in Lombard, Ill., and other famous annual events.

TWO BROTHERS IN GIFT AUTO, AND FRIEND, HIT BY FREIGHT

First Outing for Brothers in New Car
Proves Fatal. Auto Completely Wrecked

Car in which Anderson boys were killed, after it was towed to garage.

Three Tinley Park boys, Charles Anderson, 17 and his brother, James, 15, of 182nd street and Sayre avenue, and Bob Stifter, 16, a neighborhood chum, of 180th and Ridgeland avenue, were killed last Saturday when a freight train hit their car as they were crossing the Rock Island railroad grade crossing at 66th court near Oak Forest avenue in Tinley Park.

According to witnesses, Charles, who was believed to have been driving, waited for the westbound train to pass, and then drove in front of the eastbound train just as the caboose of the first train had cleared. The car was dragged about 90 feet, and two of the bodies were thrown clear of the car by the impact. Charles and James were killed instantly, but the pulmonologist was called for Bob who was still alive. However, the attempt to save his life proved futile. At the inquest held Monday morning at the West End Chapel in Chicago Heights, death was declared accidental.

The Anderson boys had just received the car, which was a 1941 Ford sedan, that very morning as a gift from their father. It was the first time the boys had been out with the car.

The crossing where the tragedy occurred is the farthest east crossing in the village, and is about two blocks east of the depot. The crash was heard by many in the vicinity, and a great many people were on the scene immediately afterward. The engineer's name was given as W. Collier and the conductor as L. Eckard, both of whose addresses were unknown.

The freight and a Joliet commuter train were delayed about 30 minutes by the accident, while the wreck also tied up the passage of the Golden State and Rocky Mountain limited streamliners. The auto was completely demolished, with wreck age strewn hundreds of feet along the tracks.

Police Chief Norman Robinson tested the flasher signals at once and found them in good working order. However, this is regarded as a very dangerous crossing, as there is an abrupt incline and vision is none too good. Everyone feels that gates should be installed at this crossing as an additional safeguard.

Charles and James were the sons of Mr. and Mrs. Robert Anderson. Charles was born December 14, 1934. He was enrolled in the Tinley Park school in 1941 and graduated in 1949. He attended Thornton township high school for about a year. (Continued to back page)

Use of Land Given New Lenox Athletic Club for Baseball

Mr. C. L. Klingsing of New Lenox is giving the athletic club the use of six acres of his land, located on the East Joliet Road, which is off South Cedar street in New Lenox. This will be used instead of the diamond just west of the village on Route 30, Lincoln Highway. The boys are busy at the new location now, making a diamond and seating facilities.

It is planned to have three age groups of boys, and a league for those aged nine to 12, 13 to 15, and 16 to 19. Robert Gillette will be manager of the older boys team.

Mr. John Oster, principal of the New Lenox public schools, requests that boys in the age group 9-15 who have not notified him previously that they want to play should get in touch with him at once.

A girls' team is also being considered. Girls interested in playing should be at the diamond this afternoon, June 12, at 6:30.

The Reds will never invade the USA. They couldn't afford to live here.

Consolidation Is Discussed at Meeting in Homer

Approximately 75 persons attended the meeting in the Homer Town hall last Monday evening. The discussion, led by Will County Superintendent of Schools, Louis F. Bottino, concerned the advisability of Homer schools entering the Ludwig district, which now includes the Dailey and Burkhardt districts, or forming a consolidated district of their own, thus insuring the schools remaining in the township; one-room schools were also debated pro and con.

No decision was reached, although the debating lasted until a late hour. An informal ballot showed that about 30 of the group were in favor of some sort of consolidation; 10 or 12 were distinctly opposed to it, while the rest were undecided.

Harrington district has already circulated a petition to enter the Ludwig district, and is waiting for it to be acted upon by the trustees at the end of the 20 days which must expire before action can be taken.

Frankfort's team beat Beecher by a score of 5-2 in the first game of the Little League season. While David Zechlin was breezing along for the first 4 frames the Frankforters gained 3 runs.

Carter homers in First

After Gerald Mankowski smashed to short Allen Mager singled. Ronnie Studnicki hit safely and Donnie Carter hit what seemed a double down the right field line. But the right fielder had gone for the old saying the right-handers hit to left. So he couldn't get to it in time to cut it off and it rolled on and on. Carter came home scoring Mager and Studnicki ahead of him. In the top of the fifth Zechlin had his only trouble of the game and Beecher tallied 2. But in the last half of the inning Frankfort came back with two more and that was the deciding score. Zechlin breezed through the last inning and collected No. 1 win.

Sanitary Milk Production

DESPITE the fact that milk cans are washed at the dairy, the careful dairy farmer again washes the cans with plenty of hot water when he gets them back on the farm.

When washing cans with commercial cleaning compounds, use only the products of reliable, responsible manufacturers. Follow the manufacturer's directions exactly—experimenting with temperatures or quantities may be dangerous. Over-strength mixtures may damage

the inner tin lining of the cans and once this lining is damaged, either from cleaning compounds or careless use of the stirring rod, the top-grading of milk or cream carried in the cans is endangered.

After washing milk cans, put them upside-down on a milk can rack with the lids off as illustrated. This will let most of the moisture drain out of the cans, and air will evaporate whatever moisture remains. Handle milk cans carefully in this and all other operations. Strong as they are, they are not indestructible and, with the restrictions of the present war emergency, they may have to last you a long time.

Before each use, inspect milk cans carefully. Look especially for open seams, crevices, bad dents and scratched inner linings. If the inner linings are broken or damaged, milk or cream may acquire a metallic flavor which leads to downgrading at the dairy. Such cans may be used for whey or skim milk but not as containers for top-quality milk or cream.

Tips on Touring

By Carol Lane
Women's Travel Authority

The average family visiting a state or national park suffers from "spectatoritis," a noted naturalist told me recently.

That is, they enjoy the scenery but miss many of the subtleties a park has to offer. The most exciting discoveries in a park are found under rocks, among the ferns and grasses, in the streams or in the trees.

My scientific friend takes his four children out on "bring-em-back-alive" park trips several times a year. For instance, when they are near a brook, the children wade through it with cheesecloth or wire sieves catching tadpoles, salamanders, crayfish or minnows. With the same equipment they run through a field collecting insects. Where the conservation laws permit, they pick wildflowers, leaves or rock specimens.

Their park visit is one grand treasure hunt. But the treasures are supplied free by generous Mother Nature. And the children are stimulated by their own curiosity to learn more about their finds when they get home.

Incidentally, with some forms of wild life, camera traps can be a fine substitute for personal observation. Just rig a camera and flash attachment, triggered by bait, before retiring. Night-feeding animals will take the bait and their pictures at the same time.

The staffs of Museums of Natural History often help plan scientific adventures for children. Perhaps they can help you season your families' summer trip with some simplified science!

A huge cake decorated with posies, diploma, cap and inscriptions centered the table. Cakes, punch and coffee were served. HEARING HELD—

(Continued from front page)
just ownership of land was one of the main reasons for the secession.

Other reasons given by the petitioners were the fast encroachment of the city of Chicago upon the suburbs of Orland and Palos; in a few years there would be too many pupils for a country school's capacity.

Another reason advanced for wishing to go south was that all their interests lie in this direction—their business, the church, their friends etc. The claim was advanced from several quarters that the unwillingness to release them was purely financial.

On the other side, it was pointed out that a much better school could be had with them than without them, and that the high school district would be considerably weakened by the withdrawal of the dissenting units.

Last fall Palos had selected a site at 111th and No. 80th Ave. and after this petitions were circulated in both townships for the merger of the districts of Orland and Palos Park. Many believe that there should have been an election held on this merger.

An election date has been tentatively set for July 12, to determine the location of the new high school site. Indications are that the people will vote on a site at 133rd and U. S. 45, north of Orland on the west side of Route 45. This is almost in the exact center of the new school district.

Several members of the dissenting faction demanded that a decision be made by the trustees during the meeting, but this decision was not forthcoming. A motion was then made by one of the trustees that the petitions be taken under advisement, with the promise of an early decision.

NEW MEYER
Hay Conditioner
Saves the day that makes the hay!

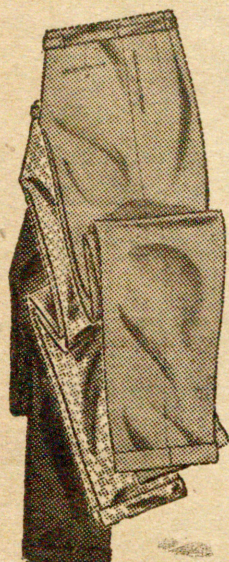

Put Up Your Hay The Day It Is Cut. Condition hay at same time. Stems dry rapidly as leaves. Beat weather hazards.
Puts more milk in your pail — more flesh on your beef — brings more money — saves time and labor.

Difference Almost Unbelievable. Retains the Carotene (Vitamin A) and Protein in stems and leaves — retains color — stems and leaves stay soft and pliable — easier to rake — requires less time to bale and less space to store.

MOKENA
Tel. Mokena 3521

The Mokena Book club will meet with Mrs. Ray Hoolehan Friday evening, June 13 at 8 o'clock. Miss Joan Martie will review "Captain Sam Grant", by Lloyd Lewis.

Two infants were baptized in St. Mary's Catholic church Sunday morning following regular service, by Fr. Juniper. They were the five week old son of Mr. and Mrs. William Lowry of Midland avenue. The name given was William Johann. Godmother was Mrs. Lowry's mother, Mrs. Charles Singler and Jack Singler, brother of Mrs. Lowry was godfather. They are from Chicago. After the ceremony a reception was held in the Lowry home. Among the guests were Mrs. Grace Lowry and her mother, Mrs. Jean Valentine of Chicago, mother and grandmother of William Lowry.

1953 License Plates To Be Red and Buff

Secretary of State Edward J. Barrett has announced that the color combination of 1953 Illinois license plates will feature ruby red figures against a buff background.

Secretary Barrett also stated that the contract for the manufacturing of the 1953 plates had again been awarded to Hemp and Co., of Macomb, Illinois. Despite the fact that bids were solicited from numerous concerns throughout the country, Hemp and Co., which has manufactured the plates for the past several years, was the only bidder. This is attributed to the fact that, with the present shortage of the commodities used in the manufacturing and processing of the plates, many manufacturers did not feel able to guarantee delivery of the finished plates.

According to Secretary Barrett, the bid of twenty-three and two-tenths cents (\$23.2) per set of plates, submitted by Hemp and Co., is identical with the price paid for the 1952 plate. Specifications and composition of the 1953 plate are to be the same as the present plate.

Mental 4-F's to be Reexamined in June

Reexamination of 611 Illinois Selective Service registrants now in Class IV-F for mental reasons only will take place during June, it was announced today by Colonel Paul G. Armstrong, State Director of Selective Service.

So far this year 1269 mental IV-F's have been ordered re-examined and about one third have been found acceptable by the armed forces.

Colonel Armstrong said those to be reexamined will be men previously found unacceptable for service solely because of failure to meet minimum intelligence standards. Any found acceptable under the lower standards set by Congress in the 1951 amendments to the Selective Service law will be reclassified out of IV-F, he said.

ALL SHOULD OBSERVE 'FLAG DAY', JUNE 14

Old Glory is now 175 years
old. One hundred and seventy-
five years ago this month the
Continental Congress adopted a
resolution declaring that the
American flag should have 13
alternating red and white
stripes against a blue back-
ground.

As new states were added to
the Union, additional stars took
their place in the blue field,
but the design of the American
flag has remained basically the
same.

Flag Day is Saturday, June 14
a day when everyone should
display our flag—the symbol of
a nation that in an incredibly
short period of time became the
greatest on earth.

Our Flag

You are more than a bunting of
red, white and blue
You are the toil our forefathers
knew
You are the life-blood, and the
prayers they said
You are the hallowed soil on
which they bled
You are the great vision that
they understood
You are the symbol of American
brotherhood.

Over pine clad mountains and
through valleys below
We have lushness of nature
wherever we go.
The rich soil of the wheatlands,
the gold and the ores
The coal and the timber, the
black oil that pours.
Oh America! how fortunate and
how blest are we
That our forefathers had fore-
sight to invest in these!

May ever your stars shine
through the sun and the rain
From the deep blue Pacific to
the rock-bound Maine.
Keep flying like the eagle way
high in the sky,
And may your stars ripple and
toss as the wind clouds go by,
Defiant to all after which our
freedom would lust,
And forever, and ever in our
God we will trust.

Tinley Tops Lincoln AC 9 to 8

Sunday June 18 the Sports-
men's club of Tinley Park en-
gaged in a slugging bee with
the Lincoln AC's baseball team
and came out on the long end
of a 9-8 score.

Tinley hit consistently and
long, garnering a total of 17
hits including 2 home runs, 6
triples, 3 doubles and 6 singles.
Poor base running coupled with
failure to hit in the clutch ac-
counted for the low run produc-
tion.

Dan Anfield and Kramer hit
the 2 homers. Dan's came with
2 aboard in the 4th, accounting
for 3 runs and Kramer's in the
8th to tie the score at 8 all.

Siebrandt carried off hitting
honors with a walk, a triple, 2
doubles and a single in 5 trips.

Others that smacked that
apple were Stine with 2 for 3,
Rump with 2 for 3, Anfield 2
for 3, Reiher 1 for 1.

Ludwig started for Tinley and
was relieved in the 7th by Ricci
after 3 runs had counted. Ricci
pitched 2-3 innings, allowing
2 hits and 1 run.

Ludwig allowed only 4 hits
and 1 run in the first 5 innings
but in the sixth 2 hits helped
with 2 errors allowed 3 runs to
count.

On Sunday, June 15th, Tinley

stay because Wolverines even dry out
soft after soaking. And your Wolverines
continue to wear, wear and WEAR
long after ordinary work shoes would
be worn out completely. Try 'em and
